# Sento

## is a revolutionary puff switch for Quha Zono

Quha Zono has given you complete control over devices wirelessly. With the addition of Sento, the world's first contactless puff switch, your clicking and cursor movements are precise and intuitive. Sento improves your user experience with almost any device imaginable.

Using Sento is easy to learn and adapt to your personal puff volume. The unique design supports seamless and comfortable usage; you can finally move from just controlling your devices to navigating freely in your personal way. It is an essential addition to the Quha product family.

The design and the feeling of quality are great!
