# Quha Vido

is a unique way to take full control  
of your computer.

Quha Vido allows you to use your computer more efficiently and it frees up your screen from virtual keyboard and mouse. Easy and fast setup lets you decide where you want to place the Vido display.

External virtual keyboard and mouse makes writing emails, browsing the internet and working with your computer a whole new experience.

I love the Quha Vido. I can use my computer  
much faster now!
