QUHA ZONO X - GYROSCOPIC BLUETOOTH® HEAD MOUSE

Quha Zono X is a new tiny handsfree Bluetooth® mouse for people who can't use desktop mice with their hands. With simple head movements the user can move the cursor accurately on any modern computer or mobile device.

Quha Zono X is for anyone who has difficulties in operating a computer mouse with hands. Typically Zono X users are people with various medical conditions relating to hand/arm functionality.

Quha Zono X is compatible with all Bluetooth® enabled computers and mobile devices. Compatible operating systems include Windows, macOS, ChromeOS, Android, iPadOS, iOS and Linux.

Sales package includes:

- Quha Zono X mouse
- Charging dock
- License for Quha Dwell 2 software (page 10)
- USB-C charging cable
- Ear clip
- 3 silicone ear tips
- Eyeglass clip
- User manual and warranty card

Quha Zono X is EU MDR and UKCA compliant.

Choose the best way to wear Quha Zono from the options presented on page 3.

QUHA ZONO USER STORIES

“IT IS VERY IMPORTANT THAT I CAN USE A COMPUTER AND A CAMERA BY MYSELF”

My name is Jari Mönkkönen and I am tetraplegic. I worked as a firefighter for 12 years. I also have a long career in artistic gymnastics. I have 29 gold medals at the Finnish championships and also a silver medal at the European championship on high-bar in '98.

My tetraplegia is caused by a sports accident. I made a double backflip and it landed on my neck. Nowadays I work as a head coach in a company called Volttimedia. We train young people and sports clubs.

Computers are very important in my daily life. After this accident, in a rehabilitation center, I tried several different devices and chose the Quha Zono head mouse. Quha Zono is accurate, fast, light-weight and easy to use.

“I WOULD DEFINITELY RECOMMEND THIS DEVICE TO OTHERS”

My name is Katherine Quinn. I am 18 years old and I have cerebral palsy. My muscles don't work right, but my brain works just fine. I live in Carmichael, California. My interests are scrapbooking, horseback riding and watching videos. I'm going to be a senior at Rio Americano High school, where my favorite class is music. One day I would like to be Judge Katherine Quinn.

I have previously tried a headmouse, but it was difficult to use. I also tried the Eye Max, but it was too hard to set up every time I changed classes. Then I heard about the Quha products from Maggie Mahoney at Quha USA.

With the Quha Zono mouse I can easily upload a video on YouTube and read ebooks all by myself. Another great thing about the Quha Zono mouse is that you can move around with it – this is very important for me as sometimes my body moves by itself and I can't control it. These are the reasons why Zono is so great. I would definitely recommend this device to others.

QUHA SENTO - CONTACTLESS PUFF SWITCH FOR QUHA ZONO AND ZONO 2

“

The design and the feeling of quality are great!

Quha Sento is the world's first contactless puff switch. It is used to perform a short mouse click or dragging together with the Quha Zono and Zono 2 gyroscopic mice.

Mouse clicks are made easily and hygienically with a small puff to the microphone type of mouthpiece.

WITH QUHA SENTO YOU CAN PERFORM MOUSE CLICKS EASILY, HYGIENICALLY AND WITHOUT HANDS.

DESIGNED CONSUMER ELECTRONICS LOOK & FEEL

- No internal mouth pieces

COMPLETE WIRELESS COMPUTER ACCESS

- Sento together with Quha Zono is the complete solution for computer access.

THE ONLY 100% HYGIENIC PUFF SWITCH ON THE MARKET

- Enables one device to be shared between multiple users.

NO CONTROL DELAY, UNIQUE SENSOR TECHNOLOGY

- Instant puff response

QUHA PUFO+ - PUFF SWITCH FOR QUHA ZONO AND ZONO 2

Quha Pufo+ is a wireless puff switch for the Quha Zono and Zono 2 gyrosopic mice.

Quha Pufo+ puff switch is quickly connected to Quha Zono — no additional power or configurations are needed. The mouthpiece is easily adjustable to each user and replaceable for hygiene.

A little puff to Pufo's mouthpiece will generate a left mouse click and two short puffs a double-click. The dragging can be easily done with a long puff.

QUHA DWELL 2 - DWELL CONTROL FOR COMPLETE COMPUTER ACCESS

Quha Dwell 2 is a complete computer access software for assistive mice.

The unique circular Instant Dwell feature makes computer usage faster, more comfortable and ergonomic compared to any current dwell control software.

With Quha Dwell 2 you can easily control all the functions of your computer, switch between applications, copy-paste and scroll. Any new function can be added to Quha Dwell to meet your needs.

QUHA KAJO BUTTON - ABILITY SWITCH

Quha Kajo Button is a sensitive and durable Assistive Technology switch designed for everyday use. It can be used in any situation that requires switch access.

Quha Kajo Button has been designed to endure hard use and no compromises have been made with the quality of components. It is mountable using the thread inserts in the bottom.

Quha Kajo Button switches have distinctive auditory and tactile feedback. They are available in three different sizes - **25 mm (1")**, **50 mm (2")** and **100 mm (4")**.

QUHA KAJO SOFT BUTTON - PILLOW SWITCH

Quha Kajo Soft Button is a soft switch with a large soft surface. Because of the soft foam layer under the cover the Soft Button can be safely pressed with head movement.

The safety pin in the bottom of the Soft Button ensures that the button stays where it is supposed to stay during the night. It can be attached to a pillow or other fabrics. The safety pin is detachable.

The cover of the Soft Button is dirt resistant and skin friendly. The cover can be washed (up to 60°C/140°F)
